220279

EXPLANATIONS

This list includes, with a few exceptions, only those publications which are kept in the Reading Rooms. The selection is determined by their meeting all of the following conditions: (a) not appearing in complete volumes; (b) being of composite character; (c) continuing publication indefinitely. Those serials not meeting these conditions are placed upon the shelves as soon as received, and should be called for through the delivery desks. The total number of periodicals in the list is approximately 3260.

The titles are given in three arrangements:

I. Alphabetically by title or name of society with the cross references considered necessary.

II. Classed by subject.

III. Those in foreign languages classed by language.

A serial having a distinctive title, whether published independently or by a society or a public office, is entered under the first word, not an article, of the current form of the title.

A serial published by a society or a public office and not having a distinctive title is entered under the society or office.

A society or institution is entered under the first word, not an article, of the current form of its name, except that (a) a foreign university is entered under the place where it is situated; (b) an observatory is entered under the place where it is situated, or under the name of the university with which it is connected; (c) the adjectives in foreign languages equivalent to Royal, Imperial, etc., are not used.

A government office is entered under the name of the country, state, or city, with the significant words of the name of the office, omitting such words as *bureau, department,* etc.

The number at the end of each title indicates the position of the set on the stack shelves and will enable a reader to call for bound volumes through the delivery desks.

REGULATIONS

The Library is a free public reference library, open to readers every day, excepting Sundays, New Year's Day, Independence Day, Thanksgiving and Christmas, from 9 A. M. to 10 P. M.

Umbrellas, suit cases and bags (except brief cases) must be checked in the Cloak Room. Hats and coats must be checked in damp weather, and in dry weather if not worn. No charge is made for the service. The Library will not hold itself responsible for unchecked articles nor for any articles left over night.

Books shelved in the Reading Room and in the Senn Room, except as noted below, may be consulted without formality, but after use are to be left on the tables, instead of being replaced on the shelves.

Current periodicals, except those on the Medical Sciences, may be consulted in the Periodical Room and may be obtained for use at the tables in the Reading Rooms by presenting at the delivery desk call-slips properly filled out. Current medical periodicals are shelved outside the Senn Room and may be consulted there.

Books not shelved in the Reading Rooms may be obtained by presenting at the delivery desk book call-slips properly filled out. These books are to be returned to the desk from which they are received.

Persons engaged in special research, if satisfactorily vouched for, may be admitted to the Stack Rooms. Application for this privilege should be made to the Reference Librarians. All books used under this provision are to be left on the tables in the Stack Rooms.

Books not suitable for general use may be consulted only upon registration and statement of satisfactory reasons, and those of great value or rarity only in the presence of an attendant.

Writing or marking in books belonging to the Library, their mutilation in any manner, and their removal from the Library, are forbidden. The tracing of plans will be permitted if done over a celluloid cover, but not otherwise. The covers will be furnished upon application at the delivery desk.

The officials of the Library are authorized and instructed to exclude any person of unseemly behavior or appearance, and any one wilfully violating its regulations.

The Reference Librarians, in charge of the Reading Rooms, will give assistance in the use of the library.
